How we work out your premium

Your insurance premium generally reflects the likelihood of a claim being made on your policy in the future. There are a number of factors we take into account when determining your premium.

We calculate your premium by combining the:

- ▶ pricing factors
- ▶ discounts
- ▶ policy options
- ▶ cost of choosing to pay by the month, and
- ▶ government charges.

Other commercial factors affect the premium you pay, including costs associated with operating our business. Each time you renew your insurance your premium is likely to change, even if your personal circumstances have not changed. This is because the premium you pay is calculated on our updated modelling, based on your circumstances and wider insurance trends.

Pricing Factors

The premium you pay for your insurance reflects the likelihood of you making a claim together with the potential value of any claim. So, if you have a lower chance of making a claim then you will generally pay a lower premium compared to someone who has a higher chance of making a claim.

Our experience shows there are a number of factors that are a good indicator of the possibility of a claim being made. We call these pricing factors.

The following table describes some of the pricing factors we may take into account to determine your premium for Buildings Insurance or Contents Insurance.

Pricing Factors	Buildings	Contents
The location of your home	✓	✓
The amount your home or contents are insured for	✓	✓
The age of the oldest insured	✓	✓
Who occupies your home – for example, owner or renter	✓	✓
The way you use your home - for example, residential or business use	✓	✓
The construction material of your home and roof	✓	✗
The year your home was built	✓	✗
The type of alarm fitted to your home	✗	✓
The basic excess amount you choose	✓	✓

Discounts

The following discounts are available depending on the type of insurance you have chosen:

- ▶ Years of Membership Benefit
- ▶ No Claim Bonus
- ▶ Multi-Policy Discount.

Policy options

If you have Buildings Insurance you may add the following options to your policy by paying any additional premium that applies:

- ▶ Accidental Damage
- ▶ Burn out of electric motors – fusion.

If you have Contents Insurance you may add the following options to your policy by paying any additional premium that applies:

- ▶ Accidental Damage
- ▶ Burn out of electric motors – fusion
- ▶ Valuable Items Cover
- ▶ Portable Items Cover.

Cost of choosing to pay by the month

If you choose to pay your premium by monthly instalments you pay more than if you pay annually.

The extra premium you pay will be shown on your current Certificate of Insurance.

Government charges

Home Insurance policies are subject to stamp duty imposed by state governments in addition to GST.

Government Charges	Home Insurance
GST	10%
Stamp Duty	10%

How we calculate your home premium

Step 1

First, we will combine the pricing factors and the cost of any options you have chosen (except Burn out of electric motors – fusion).

Step 2

Then we add the cost of choosing to pay by the month.

Step 3

Once this amount is calculated we work out any No Claim Bonus you may be eligible for and apply this to the amount from Step 2.

Step 4

If you have both Buildings and Contents Insurance under the one policy, we add your buildings premium and contents premium together.

Step 5

Then, we add the cost of Burn out of electric motors – fusion, if you have chosen this option.

Step 6

We then work out any Multi-Policy Discount that you may be eligible for and apply this to the amount from Step 5.

Step 7

We apply any Years of Membership Benefit you may be eligible for to the amount in Step 6.

Step 8

We then add applicable government charges to work out the premium you need to pay.

Excess

An excess is an amount you pay when you lodge a claim. You may have to pay more than one type of excess depending on your circumstances.

There are 3 types of excess(es):

- ▶ basic
- ▶ accidental damage, and
- ▶ special.

The amount and types of excess(es) payable are shown on your current Certificate of Insurance.

You do not have to pay an excess if you make:

- ▶ a liability claim, or
- ▶ a claim for food spoilage (see Section 3 of your RACV Home Insurance PDS).

Basic excess

If you make a claim for a listed event you must pay any basic excess that applies.

You can choose one of the following amounts as your basic excess: \$100, \$200, \$300, \$500, \$750, \$1,000, \$2,000, \$3,000, \$4,000, \$5,000.

Or if you're 50 years or older you can choose a nil excess in place of \$100 excess.

If you choose a higher basic excess on your policy, you can decrease your premium.

Accidental Damage excess

If you have chosen the Accidental Damage option and make an accidental damage claim, you must pay the \$300 accidental damage excess instead of your basic excess.

Special excess

We may apply a special excess for one of the listed events. A special excess is payable in addition to your basic excess. Any special excess applicable to your policy will be shown on your current Certificate of Insurance.

Discounts

We offer the following discounts that you may be entitled to:

- ▶ Years of Membership Benefit
- ▶ No Claim Bonus
- ▶ Multi-Policy Discount.

The discounts you have will be shown on your current Certificate of Insurance.

The way in which the discounts are applied to your premium is set out under the heading 'How we calculate your home premium' on page 2 of this guide.

How does No Claim Bonus work?

Each year at renewal, your policy automatically moves up to the next level of No Claim Bonus if you do not make a claim in that period of insurance.

If you do make a claim, your policy will move down two levels of No Claim Bonus.

Liability claims do not affect your No Claim Bonus.
