This guide provides further information about the cost of your insurance and excess(es) you may need to pay if you make a claim.

How we work out your premium

Your insurance premium generally reflects the likelihood of a claim being made on your Policy in the future. There are a number of factors we take into account when determining your premium.

We calculate your premium by combining and considering the following:

- pricing factors
- discounts
- policy options
- minimum and maximum premium, and
- government charges.

Other commercial factors affect the premium you pay, including costs associated with operating our business. Each time you renew your insurance your premium is likely to change, even if your personal circumstances have not changed. This is because the premium you pay is calculated based on a number of factors, including our updated modelling, your circumstances and wider insurance trends.

Pricing Factors

The premium you pay for your insurance reflects the likelihood of you making a claim together with the potential value of any claim. So, if you have a lower chance of making a claim then you will generally pay a lower premium compared to someone who has a higher chance of making a claim.

Our experience shows there are a number of factors that are a good indicator of the possibility of a claim being made. We call these pricing factors.

Some pricing factors are more significant than others, and the impact may vary according to your circumstances. For Motor Insurance policies, pricing factors that may be taken into account in determining your premium include a combination of some or all of the following:

- policy type
- level of cover
- optional coverages or benefits you have chosen
- whether you have nominated Agreed Value or Market Value for your vehicle
- any excesses or special conditions that apply
- value of your vehicle including external sources for values and specifications
- age, make and model of your vehicle
- where your vehicle is kept
- what your vehicle is used for
- whether you have finance on your vehicle and the type of finance
- how you choose to pay your premium
- your previous year premium if your policy is a renewal, and
- features including age, gender, driving experience and claims history of the owners and drivers of your vehicle.

This is not an exhaustive list of our pricing factors

We collect information in relation to these pricing factors from you and other sources and we use our data, models, and experience to assess how important each pricing factor is for your policy. At any time we may change the relative importance of any of the pricing factors or how they combine to affect your premium, and we may add to or remove pricing factors from the calculation as we see fit.

When you first take out a policy, the number and type of claims and incidents that all owners and drivers have had in the last five years is taken into consideration in determining the premium.

When you renew your policy, the claims and incidents that occurred in the prior 12 months are used to calculate the premium offered for the renewal of that policy (but not any other RACV motor policies you have). This is, in addition to any claims and incidents that were used to determine the premium for the previous renewal of that policy (or new policy if this is your first renewal).

Discounts

The following discounts are available depending on the type of insurance you have chosen:

- Multi-Policy Discount
- Years of Membership Benefit

How we calculate your motor premium

Step 1

First, we will combine the pricing factors.

Step 2

Then we add the cost of choosing pay by the month (except for Complete Care[®] Insurance).

Step 3

If you have chosen a higher basic excess to reduce your premium we will apply your Flexi Excess Discount to reduce or remove your basic excess we will add the additional premium.

Step 4

Comprehensive Insurance - We then add the cost of any options you have chosen (for example, Hire Car, Windscreen or Any Repairer).

Step 5

We then work out any Multi-Policy Discount that you may be eligible for and apply this to the amount from Step 4.

Step 6

We apply any Years of Membership Benefit you may be eligible for to the amount in Step 5.

Step 7

We then add applicable government charges to work out the premium you need to pay.

Excess

An excess is the amount you contribute towards the cost of your claim.

There are three types of excess(es):

- Basic
- Age
- Special.

Your current Certificate of Insurance shows the amount and types of excesses that apply to your policy.

The type of excess you need to pay depends on what your claim relates to and who was driving your vehicle. Also, you may need to pay more than one excess.

When you make a claim, an excess may apply. If so, we will:

- deduct the excess from any claim payment, or
- request you pay the excess to us, or to the repairer or supplier.

If we request you pay the excess, we will tell you who to pay and may require payment as part of the finalisation of your claim.

Basic excess

If you make a claim, a basic excess may apply. The circumstance(s) when an excess (including a basic excess) does not apply are set out in this Excess section.

We determine the basic excess that will apply at the time a policy is taken out based upon the type of insurance you have chosen and whether you are insuring a motor vehicle or motorcycle.

Insurance Type	Basic Excess
Motor Vehicle Complete Care®	\$700
Motor Vehicle Comprehensive	\$700
Motor Vehicle Third Party Fire & Theft	\$700
Motor Vehicle Third Party Property Damage	\$700
Motorcycle Comprehensive	\$575
Motorcycle Third Party Property Damage	\$575

In some circumstances, factors such as:

- what you use your vehicle for, for example private or business use,
- the type of the vehicle you are insuring, and
- the age of the drivers of your vehicle

will result in a higher basic excess amount than shown above. In these circumstances you will not be able to choose any other basic excess amount.

Your basic excess amount will be shown on your current Certificate of Insurance.

What are the choices of basic excess for Complete Care® or Comprehensive Motor Vehicle Insurance?

You may choose one of the following excess amounts as your basic excess:

Basic excess levels
\$0
\$300
\$700
\$825
\$1,000
\$1,500
\$2,000

If you choose a higher basic excess on your Policy, you can decrease your premium.

For more information on the discount available, please see the 'Discounts' section of this guide on page 4.

You may also choose to remove your basic excess by paying an additional premium.

Age excess

This excess is paid in addition to any basic excess and applies to:

- any driver under 25 years of age,
- any driver 25 years of age or over with no more than 2 years driving experience after obtaining a provisional or probationary licence

but does not apply to:

- a learner driver who was accompanied by a fully licensed driver aged 25 years of age or more.

The following three tables explain what age excess may apply at the time of a claim:

If you have named an under 25 year old as a driver on your Policy:

Insurance Type	Age Excess
Any Motor Insurance	\$400

If the driver of your motor vehicle or motorcycle is under 25 years of age and you have not named an under 25 year old driver on your Policy:

Insurance Type	Age Excess
Complete Care® Comprehensive Third Party Fire & Theft	\$1,600
Third Party Property Damage	\$1,200

If the driver of your vehicle is 25 years of age or over with no more than 2 years driving experience after obtaining a provisional or probationary licence:

Insurance Type	Age Excess
Any Motor Insurance	\$400

You cannot pay an additional premium to remove an age excess.

Special excess

We may decide to apply a special excess to an individual owner or driver, or in relation to a specific incident, taking into account such factors as the type of vehicle and owner or driver incident, claims or traffic offence history.

The amount of the special excess will be shown on your current Certificate of Insurance and generally ranges from \$200 to \$2,500.

A special excess is payable in addition to your basic or age excess where applicable.

You cannot pay an additional premium to remove a special excess.

When an excess does not apply

There are a number of instances in which you will not be required to pay an excess when we pay your claim:

Insurance Type	If you make a claim for	Then you will NOT have to pay an
Complete Care [®] or Comprehensive	Theft or attempted theft	Age excess
Complete Care [®]	Windscreen, sunroof or window glass damage only	Basic, age or special excess

Third Party Fire & Theft	Insured Motorist Damage	Age, basic or special excess
Third Party Fire & Theft	Uninsured Motorist Damage	Age, basic or special excess
Third Party Property Damage	Uninsured Motorist Damage	Age, basic or special excess

Determining fault in an incident

When determining the excess that will apply to your claim, we may need to decide if you or someone else is at fault. To do this we may request reasonable additional information from you – for example witness statements or photographs – and consider any laws, bylaws or rules that apply to the claim circumstances.

If we are not satisfied or unable to determine that someone else was at fault, the excess is payable.
