Bocce is a competitive game of skill. It sharpens the reflexes and judgement – and stimulates good fellowship among players.

Four squares will be marked on the sand. In each square there will be several items of buried treasure. The more treasure the team finds the more points they will score!

Fill the Tub

Each team will be given two small buckets which they will need to use to fill up their tub. Sand at the bottom, tub at the top of a steep hill. Teams can either take turns running back and forth or create a line and pass the buckets back and forth along the line. Tactics may just prove very useful.

Everyone creates a circle and joins hands with two people opposite them, where the aim is to then undo the 'knot' with everyone holding hands in a circle again.

Leading the Blind

In pairs (or small groups), one person is blind folded and must navigate their way through an obstacle course while their partner is on the side giving instructions.

Concentration

Divided into two groups, one group will turn around and change ten things about them (e.g. accessories) then the other group must correctly guess what has changed.
