STEP ONE: Survey

Yes, we all completed the survey on Thursday 19th Feb, 2015

STEP TWO: Road safety topic and research our road safety issue

Our road safety topic was drink driving.

The law against drink driving is very important because as many people have seen, drink driving is a massive issue on our roads these days.

Even recently up in the Yarra Valley there was an accident with an overloaded car with six 20 year olds inside.

In this event one life was lost, three critically injured and two came out with minor injuries.

It goes to show that when your under the influence of alcohol, you do a lot of stupid things, roads and alcohol do NOT mix.

Not only did this person drive drunk, he overloaded his vehicle, lost a life that was in his hands.

Since 1997, Victoria Police have breath tested more than 20 million drivers and riders from Booze Bus operations, catching close to 70,000 drivers and riders with an illegal blood alcohol concentration (BAC) over this period.

STEP THREE: Tagline for our campaign

was it worth it ?

we think this is a good tagline because it makes you second guess yourself about what you may-be about to do.

Is it worth risking lives you love?

Is it worth risking your own life?

Is it worth losing your license?

STEP FOUR: Our social media campaign

Post 3: #wasitworthit

was it worth getting in the car?
was it worth a 'fun drive'?
was it worth hitting that girl?
tell me...

Post 5:

Think before you move.

Think before you make a mistake.

Put your life before anything.

Dont make a mistake and have to ask yourself that question.
