Today your child has taken part in the RACV Street Scene road safety program with their class.

We encourage you to teach road safety when you’re out and about with children because the example you set is vital and can shape their behaviour now and in later years.

**FOUR great ways**

to be a pedestrian role model

1. **Always Stop, Look, Listen and Think** at roads, driveways and in carparks.

2. Always cross at the crossing.

3. Children should be with an adult up to about the age of 10 or 11. Younger children should always hold hands with an adult when crossing roads.

4. While out walking - help your child make decisions about where to walk, where to cross and when to cross. Talk about the meaning of different road signs.

Staying safe while in the car

Make it a rule for everyone to always put on their seatbelts before driving off.

Have children use the ‘safety’ or kerb side door when getting in and out of the car.

It’s safest for children to continue using their booster seat until they achieve a good seatbelt fit which is around 145cm tall.

School drop off zones

Take care when dropping your child off at school or picking them up. Park only where it is allowed and use the school crossing. Think about parking a little way from school or in a side street.
